

HQ PRINCIPLES: BUILD YOUR QUALITY TOOLKIT

An Introduction to Healthcare Quality and Patient Safety

Online Certificate Program

MHREF MT Flex and HIIN programs are partnering with the National Association for Healthcare Quality (NAHQ) to bring *HQ Principles: Build Your Quality Toolkit* online certificate program at no cost to you*!

HQ Principles is an interactive online certificate program that introduces quality and patient safety fundamentals, methodologies, and concepts for healthcare professionals.

Who Can Benefit from *HQ Principles*?

- Individuals new to healthcare quality
- Individuals who have been given added responsibilities or who are looking to refresh their knowledge
- Healthcare quality team members

Interested individuals must submit a completed application signed by the applicant and their CEO. Space is currently limited to 25 participants, limit one individual per facility.

Upon completing the modules and passing the post-test, you'll earn an HQ Principles certificate. This certificate validates your knowledge and demonstrates your value as a healthcare quality professional, leading to improved health outcomes and increased contributions to the profession. Note: This certificate is not a credential.

***Participation Cost:** Participants must complete the *HQ Principles* modules by August 31, 2019 or be assessed the program cost of \$199.

Please Note: All MT Flex & HIIN projects are intended to provide education and assist in elevating performance of Montana's Critical Access Hospitals at low (or no) cost to facilities beyond their time investment. However, due to low completion rates, projects may include a monetary charge for individuals that do not complete projects or programs.

We are requesting your commitment to dedicate the staff time and support needed for successful completion. If you are struggling to complete the program, please don't hesitate to reach out and we will provide any help we can to get you through the tasks and to make sure the time already invested in the program leads to your successful completion.
